MANAGED DELIVERY · التنفيذ المُدار

You define the outcome. We deliver the proof.

حدّد النتيجة، ودع التنفيذ علينا.

A verified team, a clear scope, escrow-protected payment, and one accountable contact —
from first brief to final delivery.

FOR THE CLIENT WHO HAS BEEN BURNED BEFORE

You don't want to hire freelancers, screen proposals, and manage a team you've never met. You want a result you can trust. **Kayan runs the project and stands behind it.**

THE RISK YOU KNOW	HOW KAYAN REMOVES IT
You pay upfront and hope the work arrives.	Your payment is protected — it does not move until you accept the work.
You manage a team of strangers yourself.	A verified pod with one Pod Lead and a single point of contact.
"Done" is a matter of opinion.	Ten quality gates and a written acceptance standard agreed up front.

How it works

1 Scope We define the outcome and acceptance criteria with you.	2 Assemble A verified pod is matched to the work.	3 Protect Your payment is held in escrow, released on milestones.	4 Deliver You accept the work; we issue Proof of Delivery.
---	---	---	--

- **The Kayan Guarantee.** If a delivered project does not meet the agreed acceptance criteria, we remedy it at no additional cost. That is what escrow protection means.

20% Transparent net fee on every invoice	G0-G9 Quality gates per project	100% Escrow-protected payment

المساحة ومشروب الأصل · THE HUB & THE CAFÉ

Where Aden works.

حيث تعمل عدن.

A professional workspace on the Corniche — reliable solar power, Starlink, meeting rooms, and a community of verified professionals. Coffee from the land that gave the world coffee.

FOR THE PROFESSIONAL, THE SMALL TEAM, THE FREELANCER

In Aden, reliable power and internet are not a given — they are a competitive advantage. **The Hub is the infrastructure serious work needs**, and The Café is the door anyone can walk through first.

What you get

- **Uninterrupted power and connectivity.** Operational solar and live Starlink — your work doesn't stop when the city's does.
- **A room for every need.** Hot desks, private focus, meeting rooms, and a training hall — book by the hour, day, or month.
- **A verified community.** You're not renting a desk; you're joining a network of professionals Kayan has vetted.
- **The Birthplace Brew.** Yemen sent coffee to the world from the port of Mocha. Our café honours that heritage — Qishr, Adeni tea, Harazi bun — in the city where the story began.

From training to a first job.

من التدريب إلى أول عمل.

Yemen doesn't lack talent. It lacks the bridge from "willing and able" to "verified and earning." Kayan Forge is that bridge.

FOR THE TALENTED YEMENI WHO HASN'T HAD A FAIR CHANCE

You can do the work. What you've never had is a way to **prove it to someone who will pay you**. Forge gives you real skills, real practice, and a credential that opens real doors.

Your path

1

Train

Demand-led skills the market actually pays for.

2

Practice

Real projects through Kayan for Yemen.

3

Verify

Earn your Kayan Card and climb the Trust Ladder.

4

Earn

Join paid pods on Managed Delivery work.

- **You are not a profile in a database.** You are a verified professional with a credential that travels with you — T0 to T4, earned by what you deliver, not what you claim.
- **You keep what you earn.** Talent keeps 80% of project value; our fee is transparent on every invoice.
- **Open to all.** Your gender, your city, your connections don't decide your future here. Your verified work does.

Fund a cohort. Receive proof.

ارَعَ دفعةً، واستلم الأثر بالاسم والرقم.

Yemeni talent is not a humanitarian problem to be met with pity. It is human capital awaiting a connection to real work. Your sponsorship makes that connection.

FOR THE SPONSOR, THE DONOR, THE DEVELOPMENT PARTNER

You've funded outcomes you couldn't see. **K4Y reports impact by name and number** — how many trained, how many verified, how many reached paid work — under your name.

What your sponsorship does

- **Carries a named cohort** of Yemeni youth from training through verified practice to first paid work — a complete journey, not a one-off workshop.
- **Generates hard-currency income** repatriated into Yemen, in a city rebuilding itself — dignity through work, not aid.
- **Reports against the SDGs** you answer to — decent work and growth (8), quality education (4), gender equality (5), reduced inequalities (10), partnership (17).

By name

Impact reported per person

Hard FX

Income into Yemen

SDG 8

Aligned & measurable

- **This is the civic spine running through everything Kayan does** — not a side programme, but the purpose the whole institution was built to serve.
