From the *founder*.

كلمة المؤسس

Aden has been counted out for too long. Kayan is a quiet, deliberate answer to that — a place where work is treated with discipline, evidence and dignity.

For more than a decade, I have watched extraordinary Yemeni talent go unseen — graduates with real skill but no proof, women with ambition but no safe room, professionals doing world-class work that pays nothing because no infrastructure exists to bring it to the world. The problem was never the talent. It was the absence of trust.

Kayan is that trust, built into infrastructure. We are a coworking hub on the Corniche in Khormaksar, a training academy, and a managed delivery platform — three pillars, one operating system. Talent registers, gets verified, and earns through projects we deliver under escrow protection. Clients commission outcomes, not gambles. Partners see audited evidence, not narrative.

We launch on **1 June 2026** with a small team, conservative capital, and an uncompromising standard: *no SOW, no escrow, no work*. We will start in Aden, prove it in Aden, and only then carry the model elsewhere. The frontier economy doesn't need another platform — it needs an institution that takes the work seriously.

Thank you for reading this profile. What follows is who we are, what we do, and what we are accountable for.

— *Maher*.

Who we *are*.

من نحن

The word *Kayan* (كيان) is Arabic for "entity" — a coherent being. We chose it because that is precisely what we build: the entity through which talent, work and trust hold together.

Kayan is a Yemeni private limited company headquartered in Aden, registered as **Kayan Innovation, Entrepreneurship & Work Environments LLC**. We operate from a purpose-built ground-floor facility on Corniche Street in Khormaksar, next to Relax Hotel, with reliable solar power, Starlink internet, twelve dedicated desks, meeting rooms, a training hall, and a community café.

But Kayan is not a coworking business. The hub is the visible surface of a deeper system: a **managed delivery engine** connecting verified Yemeni professionals to clients in Yemen, the Gulf and beyond — with quality gates, escrow-protected payments, and a Trust Ladder that turns careers into compounding reputation, not one-off gigs.

A. WE ARE

An institution, not a service

مؤسسة، لا مجرد خدمة

Built to outlast its founders. Governed by a Charter. Audited monthly. Owned by Yemeni nationals.

B. WE ARE

A trust layer, not a marketplace

طبقة ثقة، لا سوقاً للعمل الحر

Every talent verified across six steps. Every project escrowed before work begins. Every payment auditable.

C. WE ARE

Aden first, frontier always

عدن أولاً، الحدود دائماً

We start in the city the world counts out — and design every system to scale to any underserved talent market.

D. WE ARE

Profitable by design, principled by discipline

ربح مُصمَّم، مبادئ مُلزمة

The escrow model, verification ladder and managed delivery engine generate revenue precisely because they protect people.

What we *stand* for.

الرسالة والرؤية والقيم

OUR MISSION

To build the professional infrastructure of the frontier economy — making the world's most constrained talent visible, verifiable and valued, starting in Aden and scaling to every underserved talent market on earth.

نبني البنية التحتية المهنية لاقتصاد الحدود — لنجعل الكفاءات الأكثر تقييداً في العالم مرئية، موثقة، ومقدرة. نبدأ من عدن وتتوسع إلى كل سوق كفاءات مهمل في العالم.

OUR VISION

A world where geography is not destiny — where a developer in Aden, a designer in Sana'a, or a researcher in Taiz delivers outcomes to clients in London, Riyadh or New York with the same protections, dignity and access as any professional anywhere.

عالم لا تكون فيه الجغرافيا قدراً — حيث يُسلم مطور في عدن، ومصمم في صنعاء، وباحث في تعز، عملاً لعملاء في لندن والرياض ونيويورك، بالحماية والكرامة والوصول ذاته الذي يحظى به أي محترف في أي مكان.

Our Values

قيمنا

I. Trust before transaction

No SOW, no escrow, no work. This is enforced by our platform — it is not advisory.

الثقة قبل المعاملة — لا عقد، لا أمانة، لا عمل. هذا قانون كيان، لا توصية.

II. Evidence over assertion

Every skill claim requires proof; every outcome requires documentation; every payment requires a dual-approved audit trail.

الدليل قبل الادعاء — كل مهارة تحتاج إثباتاً، وكل نتيجة توثيقاً، وكل صرف توقيين.

III. Resilience as expertise

Delivering quality under constraint is not a weakness — it is a specialization, and it is ours.

الصمود تخصص — التسليم بجودة في بيئة صعبة ليس عجزاً، بل كفاءة، وهي كفاءتنا.

IV. Dignity in every engagement

Talent is human capital, not a cost line. Rates are fair. Payments are on time. Disputes are resolved by evidence, not power.

الكرامة في كل ارتباط — الكفاءة رأس مال إنساني، لا بنداً يختصر الأجور عادلة، والمدفوعات في موعدها.

V. Mission and margin, together

We profit by doing what is right. The escrow model, the verification system and the managed delivery engine generate revenue precisely because they protect people.

الرسالة والربح معاً — نربح حين نفعل الصواب. حماية الناس وأرباحنا وجهان لنظام واحد.

— 05 —

The problem *we solve.*

المشكلة التي نحلّها

The global market for professional services is six trillion dollars a year. Less than *one hundredth of one percent* reaches Yemen — not because the talent does not exist, but because the trust infrastructure does not.

FOR CLIENTS

The execution gap

فجوة التنفيذ — للعملاء

- Cannot reliably hire, manage or pay Yemeni talent
- Freelance platforms optimize for volume, not outcomes
- No verified quality, no local escrow, no recourse on failure
- Compliance gaps that block INGOs, banks and government buyers

FOR TALENT

The visibility gap

فجوة الظهور — للكفاءات

- Skilled graduates are invisible to global demand
- Credibility runs on *wasta*, not on evidence
- Feast-or-famine income; no career pipeline
- Payment insecurity — work done, payment never arrives
- Unsafe environments, especially for women

*The gap is not supply. The gap is the layer of trust, verification, managed execution and guaranteed payment between supply and demand. **That layer is Kayan.***

الفجوة ليست في الكفاءات، بل في طبقة الثقة والتحقق والتنفيذ المُدار والدفع المضمون بينها وبين السوق. هذه الطبقة هي كيان.

WHY EXISTING SOLUTIONS FALL SHORT

CHANNEL	WHY IT FAILS YEMENI TALENT & CLIENTS
Global freelance platforms	Self-reported skills, race-to-bottom pricing, no local escrow, no physical presence, no outcome accountability.
Recruitment agencies	20–30% fees, place people not outcomes, no post-placement quality gate, do not surface emerging talent.
Informal networks (وسطة)	Based on who you know, no quality assurance, no legal protection, excludes women and youth, does not scale.

Kayan's position: we are the execution layer — the managed delivery engine that owns the entire value chain from scoping to payment.

— 06 —

The *Kayan model*.

نموذج كيان · الآلية التشغيلية

Kayan does not list talent. Kayan delivers outcomes. Six gates separate a client request from a final payment — and a project does not cross any gate without evidence.

CLIENT INTAKE

01
استلام المشروع

Client submits a brief. Kayan scopes deliverables, timelines and acceptance criteria. A Project Order is issued.

ESCROW FUNDING

02
تمويل الأمانة

100% of project value is deposited before work begins. No funded escrow — no work. This is enforced by the platform.

POD ASSEMBLY

03
تشكيل الفريق

Verified talent is matched by micro-specialization, trust tier and past performance. A pod lead is appointed.

MANAGED EXECUTION

04
التنفيذ المُدار

Milestones tracked, internal QA gates before client review. The client receives updates — not coordination burden.

QUALITY & DELIVERY

05
الجودة والتسليم

Output is reviewed against documented criteria. Acceptance is evidence-based. A 2% quality holdback is retained for 30 days.

PAYMENT RELEASE

06
صرف المستحقات

Escrow released to talent on acceptance. Kayan retains a 16–22% net service fee. Every release dual-approved.

WHAT MAKES THE MODEL DEFENSIBLE

- Micro-specialization graph**
 - 12 tracks (Marketing & Digital Content, Graphic Design, Web/IT, Translation & Localization, Financial Analysis, Proposal & Tender Writing, Research & Data, Project Management, Video & Multimedia, Training & Facilitation, and more). Matching is by deep specialization, not by job title.
- Six-step verification**
 - adaptive registration, government ID + live face match, portfolio review, structured references, scenario simulation, scoring & tier assignment.
- The Kayan Card**
 - a behavioral reputation record across five tiers, carried by the professional across every Kayan engagement.
- Pod assembly**
 - purpose-built small teams of 2–5 verified specialists per project, with a designated pod lead accountable for the outcome.

— 07 —

Three pillars, *one entity*.

ثلاث ركائز · كيان واحد

Kayan operates as three integrated pillars feeding one talent registry. Each generates revenue. Each strengthens the others. None is decorative.

PILLAR 01

Kayan Hub

كيان · المكان

Aden's first professional-grade coworking space — 12 dedicated desks, meeting room, training hall, café.

Reliable solar power, Starlink internet, safety, professionalism. Memberships, day usage, training-hall rentals.

"Aden's professional address."

PILLAR 02

Kayan Talent

كيان · الكفاءات

The managed delivery platform — verified talent, micro-specialization matching, pod assembly, escrow protection.

Outcomes for clients. Permanent careers — not gigs — for professionals. A Trust Ladder from T0 to T4.

"Your project. Their talent. Our guarantee."

PILLAR 03

Kayan Academy

كيان · التدريب

Six-week practical cohorts, ten courses on Day 1 (C001–C010), assessment-based certification.

Donor-funded cohorts, corporate training, open workshops. Every graduate enters the Trust Ladder.

"Skills that pay. Credentials that travel."

HOW THE PILLARS REINFORCE ONE ANOTHER

FROM	TO	THE FLOW
Hub	Talent Platform	Every walk-in, day-pass user and member is a potential verified professional. Free day passes are a funnel, not a revenue line.
Academy	Talent Platform	Every graduate is assessed against Kayan's rubrics and enters the Trust Ladder at T1 or T2 immediately on graduation.
Talent Platform	Hub & Academy	Project revenue subsidizes hub overhead; demand signals from clients update the Academy curriculum every quarter.
All three	Partners & Donors	INGOs, government and CSR sponsors fund cohorts and training-hall use; sponsorship is reported with audited evidence.

THE SIX-STEP VERIFICATION JOURNEY

- Adaptive Registration**

— A smart intake form that adapts to experience level and specialization track.

تسجيل تكييفي
- Identity Verification**

— Government ID upload paired with live selfie/video for face match.

التحقق من الهوية
- Portfolio Review**

— Work samples evaluated for authenticity, originality, and quality against rubric.

مراجعة الأعمال
- Structured References**

— Standardized reference forms from managers, professors and community leaders.

مراجع هيكلية
- Simulation Task**

— A scenario-based assignment mirroring real client work in the candidate's specialization.

مهمة محاكاة
- Scoring & Tier Assignment**

— Aggregate score → tier → profile goes live with Kayan-Verified badge.

التقييم والتصنيف

A smaller pool of *verified* talent is more valuable than a large pool of *unverified* talent. Rigor over speed. Evidence over self-report. Capability over credentials.

مجموعة صغيرة من الكفاءات الموثقة أثمن من مجموعة كبيرة غير موثقة. الدقة قبل السرعة. والدليل قبل الادعاء. والقدرة قبل الشهادة.

Strategic *roadmap.*

خارطة الطريق الاستراتيجية

Phase 1 is Aden — and only Aden. The platform, the licensing layer and regional expansion all wait for Aden to prove itself.

2026

PHASE 1

ADEN HUB LAUNCH · JUNE 2026

Hub goes live with 12 desks, training hall, café and verified-talent onboarding. First Academy cohort opens. First managed delivery projects executed under full escrow. Founding team operating on zero salary; first partner meetings, governance charter signed, trademark filed.

H2 2026

SCALE

COHORT & PIPELINE BUILD-OUT

Donor-funded cohorts (UNDP, GIZ, ILO, UN Women track). Anchor INGO clients onboarded for managed delivery. Trust Ladder populated to 200+ verified professionals. First Kayan-Verified badges issued. Conservative target: breakeven on hub by month 6.

Q1 2027

PLATFORM

KAYAN PLATFORM (PHASE 2) — TRIGGER-BASED

When unit economics in Aden are proven, Kayan launches the digital platform: client onboarding, talent matching, escrow management and Kayan Score, accessible online. Triggered by performance — not by calendar.

2027

MARKETPLACE

KAYAN MARKET & STUDIO

A gated marketplace for verified Kayan freelancers — access by badge, browsing by micro-specialization, every engagement escrow-gated. Pre-assembled Studio pods open for enterprise retainers.

2028

EXPANSION

EGYPT & REGIONAL FOOTPRINT

Replicate the Kayan operating system to Cairo as the first regional node. Licensing of the "Verified by Kayan" standard to vetted partners in additional frontier markets.

2029+

CATEGORY

KAYAN AS A STANDARDS BODY

External platforms, banks and INGOs reference the Kayan Score and Kayan-Verified standard. Hub network operating across multiple frontier markets. Kayan Ventures invests in companies emerging from the talent pool.
